Inspired to conserve nature...

Knowledge for Change

Since its establishment, the mission of North East Centre for Environmental Education and Research, Imphal (Manipur, India) is to promote public awareness, education and research for the protection and conservation of biodiversity in North East India. NECEER tirelessly pursues its mission by motivating and promoting youth to take up environmental issues and scientific research for the conservation of biodiversity and its habitat in North East India.

NECEER has been recognized by its biodiversity conservation initiatives, publications such as NeBIO Research Journal, Ecotone Newsletter, BioDiverse Magazine and as one of the most efficient organizations of its kind in NE India. NECEER has already successfully organised Nationwide Save Sangai Campaign at five metropolitan cities of the country for the conservation of endangered Sangai- dancing deer of Manipur. Organised Enviro Lecture Series in New Delhi. And presently NECEER, Imphal is organising Worldwide Save Loktak Lake Campaign in 25 + cities across the globe (2010-2012). NECEER is official partner of United Nations International Year of Biodiversity 2010

NECEER has adopted an innovative approach to bring students and scientists under a single roof through its biodiversity network project: North East India Biodiversity Network (NEIBN) and publications which helped in the promotion of environmental education and research in NE India.
